

Tyra Biosciences to Present at the Cantor Global Healthcare Conference

September 8, 2026

CARLSBAD, Calif., Sept. 8, 2026 /PRNewswire/ -- Tyra Biosciences, Inc. (Nasdaq: TYRA), a clinical-stage biotechnology company focused on developing next-generation precision medicines that target large opportunities in Fibroblast Growth Factor Receptor (FGFR) biology, today announced participation at the following investor conference:

Cantor Global Healthcare Conference 2026

Format: Virtual fireside chat and one-on-one investor meetings

Presentation Date/Time: Wednesday, September 9, 2026 at 1:00 PM ET

Location: New York, NY

A live webcast of the presentation can be accessed by visiting the "For Investors" page on the Tyra Biosciences [website](#) and will be available for replay following the event.

About Tyra Biosciences

Tyra Biosciences, Inc. (Nasdaq: TYRA) is a clinical-stage biotechnology company focused on developing next-generation precision medicines that target large opportunities in FGFR biology. TYRA's in-house precision medicine platform, SNAP, enables rapid and precise drug design through iterative molecular SNAPshots that help TYRA design and predict which candidates may demonstrate the highest potency, selectivity and tolerability in the clinic. TYRA's expertise in FGFR biology has created a differentiated pipeline with clinical-stage programs in targeted oncology and genetically defined conditions. TYRA's lead precision medicine stemming from SNAP, oral dabogratinib, is a potential first-in-class selective FGFR3 inhibitor in development for low-grade upper tract urothelial carcinoma, low-grade intermediate-risk non-muscle invasive bladder cancer and achondroplasia. TYRA is also developing TYRA-430, an oral, investigational FGFR4/3-biased inhibitor for FGF19+/FGFR4-driven cancers, in the SURF431 study for advanced hepatocellular carcinoma, and TYRA-200, an oral, investigational FGFR1/2/3 inhibitor, in the SURF201 study for metastatic intrahepatic cholangiocarcinoma. TYRA is based in Carlsbad, California.
